BETTER BY DESIGN.

CIMARRONTRAILERS.COM

BETTER BY DESIGN

"Better By Design," Cimarron Trailers lives by our motto, which encompasses the values and beliefs here at Cimarron. Founded on the dream of building a better trailer, company, and manufacturing culture, Cimarron Trailers has been committed to building the industry's best equine and livestock transportation since 2000. In 2018, Cimarron officially became the first trailer manufacturer to become employee-owned and operated. Cimarron now has two facilities to better serve our customers. Headquartered in Chickasha, Oklahoma, with a second location now in Manhattan, Kansas.

The Cimarron family includes not only our dealers and the personnel at the manufacturing plant but also our customers. One of the reasons we build highly customizable trailers is that one customer's innovation can become the new standard in the industry.

The buyer of our product holds some of the most valuable knowledge about what works and what doesn't. We use the feedback from our customers to continually improve our product. Our success comes from the quality of the product we produce, but it also comes from the chain of personal relationships that takes that product from us to you.

We know you have options when it comes to choosing a trailer, so thank you for considering Cimarron Trailers! We appreciate the opportunity to build your dream trailer for you and your family. Cimarron employees understand the commitment it takes, from the late nights and all-night drives to the selection process for your animals, the dreams, the drive, the determination, and the lifestyle. We understand it because our people live it, and we are proud to help you get down the road safely.

Reputation, innovation, and constant evolution are the benchmarks that make Cimarron Trailers legendary.

STRENGTH

OUR STRENGTH COMES FROM WITHIN

At Cimarron Trailers, we build strength into every aspect of our design. From the insulated roof and sturdy doors to the advanced stall area and extruded floor, our trailers are built to last, and ready to handle any challenge.

STIFFER SIDE POSTS

- 2" x 1-3/8" tubular posts
- 40% stiffer than traditional 2-1/2" x 1" posts
- 60% stiffer than common C or hat channel

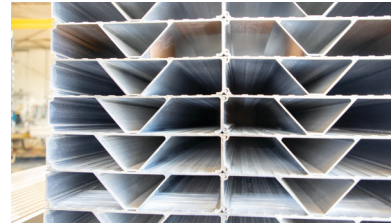

BOLT ON FENDERS

- Simple to replace if damaged
- User-friendly and cost-effective

INSULATED ROOF

- 1/2" thick fiberglass reinforced panel
- R3 thermal insulation factor
- Up to 20% cooler versus aluminum sheet roof
- Quiet and dent resistant

EXTRUDED FLOOR

- "V" hollow truss design
- Interlocking extrusion
- Double tongue and groove
- Integrated cross members and decking

STRONG DOORS

- Strongest, most durable door on the market
- Massive 7 x 1-3/4" tubular door frame extrusion
- Keyed-alike, flush mounted door latches
- Welded hinges with grease zerks
- Heavy duty safety bar grills

TIG WELDING

- Uniform, clean welds
- Through proper design, exterior welding is minimized

LED LIGHTING

- Double tail lights
- Safety! 10 times brighter and uses 90% less power than traditional lights

01 HORSE TRAILERS

UNMATCHED QUALITY FOR THE MODERN EQUESTRIAN

HORSE TRAILER

OPTIONS

FULLY CUSTOMIZABLE TO FIT YOUR NEEDS

All of our horse trailers have the rock-solid structural integrity that you've come to expect from a Cimarron trailer, with rounded edges and radius corners designed to protect your horse from accidents. Whatever exterior finish you choose, you can count on your Cimarron trailer to give you a distinctly personalized appearance.

EXTERIOR STYLE

Your personal style on the outside, Cimarron quality, safety, and comfort on the inside. When you choose Cimarron, you have the opportunity to custom design the look of your trailer. Offering six sheet colors, polished or natural aluminum and custom paint options, we can build what you can imagine.

TACK ROOMS

Cimarron's design pros have a variety of tack rooms to fit your specialized needs. Whether you have a lot or a little, we have a tack room option just for you.

- Broom Closet
- Folding Rear Tack
- Solid Rear Tack
- Double Closet Tack
- EZ Tack
- Solid Rear Tack with Side Door
- Single Closet Tack
- Full Rear Tack with Single Door
- Full Rear Tack with Double Doors

LOAD OPTIONS

How do your horses like to ride? Cimarron offers comfort for your horses in any configuration. You have the freedom to choose your own stall area.

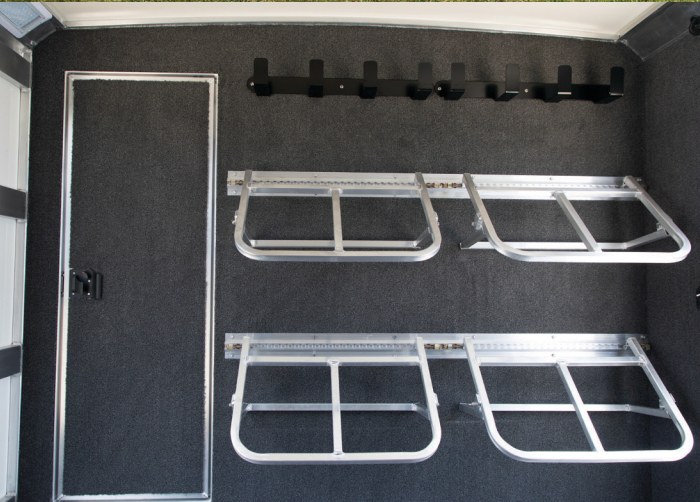

- Traditional slant load with rear tack
- Side load with full rear tack
- Reverse load with full rear tack
- Traditional straight load

02 LIVESTOCK TRAILERS

CUSTOMIZABLE COMFORT AND DURABILITY FOR EVERY NEED

Cimarron Trailers offers a comprehensive range of trailers designed to meet the diverse needs of livestock owners. Every livestock trailer is built with durability, functionality, and comfort in mind. With customizable living quarters and numerous configurations available, Cimarron ensures your livestock is transported with the highest standards of safety and care.

LONESTAR

SAFETY AND COMFORT IN EVERY DETAIL

Cimarron is focused on the safety and comfort of our livestock during transport. Each Lonestar can be customized to meet your individual style and needs. From a standard size livestock trailer to a custom designed show trailer, count on the Cimarron Lonestar to exceed your expectations.

SHOWSTAR

INDUSTRY-LEADING LOW PROFILE PEN TRAILER

Modern design elements from radius edges on extrusions to ultra-quiet slam latches make a Cimarron Trailer a pleasure to haul and operate. Each Showstar includes our innovative pen management system, a standard rear ramp and can be customized to meet your individual style and needs.

SHOWSTAR LX

USER-FRIENDLY LUXURY

Cimarron Showstar LX models are packaged with user-friendly popular features that exceed the standard Showstar models and all the competition. The LX models were designed for serious show families and livestock professionals who frequently use their trailers.

STIERWALT

THE GOLD STANDARD FOR CATTLE SHOWMEN

Cimarron Trailers teamed up with legendary cattleman Kirk Stierwalt to design the ultimate show-cattle trailer models. These models are designed with the functionality, versatility, safety, and equipment space the showman needs along with stylish eye-catching design.

LIVESTOCK TRAILER

CUSTOMIZE YOUR CIMARRON

Every Cimarron Trailer can be customized when ordered.

Cimarron offers over 400 options allowing you to build a trailer uniquely for you.

AIRFLEX®
AIR RIDE SUSPENSION

- AirFlex axles manufactured by Dexter Axle are proven to reduce stress on horses during transport. Our customers with Air Ride trailers consistently tell us how rested & fresh their horses are after hauling in a Cimarron Trailer with Air Ride. Our studies show a 42% reduction in stress on a trailer equipped with Air Ride axles. The difference of Air Ride axles can be felt in the driver seat of the tow vehicle and seen in the mirrors. You will instantly notice how smooth the trailer pulls and how it “floats” over the variations of road surfaces.
- The Dexter AirFlex axles are designed with Air Ride suspension on Torsion axles. A self-contained air supply unit is located at the front of the trailer. This unit contains the air pump, tank, dump valve, pressure gauge, on/off switch, and release valve. Air lines supply the air to the height control valve located between the axles, then air is supplied to each side of each axle.
